

# Web Development for Creative Agency

## PROJECT DETAILS

 Web Development

 May. 2024 - May. 2024

 Confidential

“  
*"Their quality control is better than 95% of the other web vendors I've worked with."*

## PROJECT SUMMARY

Enlivity S.R.L. was hired by a creative agency to build a website based on their existing Figma design and prototypes. Their work involved implementing custom functionalities and handling last-minute edits.

## PROJECT FEEDBACK

Enlivity S.R.L. delivered a seamless website that accurately matched the client's design and boasted a clear code. Leading an organized process, the team led a productive feedback process and consistently delivered on time, reflecting their excellent work ethic and commitment to client satisfaction.

## The Client

Please describe your company and position.

I am the Founder of a creative agency

Describe what your company does in a single sentence.

Creative agency that can handle any advertising needs.

-  Founder, Creative Agency
-  Advertising & marketing
-  Providence, Rhode Island

## The Challenge

What specific goals or objectives did you hire Enlivy S.R.L. to accomplish?

- Develop a website off of Figma designs.

### CLIENT RATING

5.0

Overall Score

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

## The Approach

How did you find Enlivy S.R.L.?

- Clutch Site
- Codeable

Why did you select Enlivy S.R.L. over others?

- High ratings
- Quality of review of our scope

How many teammates from Enlivy S.R.L. were assigned to this project?

2-5 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

We were working on a very high-profile website launch with a crucial deadline for our client. We designed the entire website in Figma with Protoypes and needed a vendor we could rely on to execute the build in a pixel-perfect fashion. This project was very crucial for us to deliver on, and we also knew there would be last-minute edits that the Enlivy team was also standing by to complete quickly and accurately.

The website included many specific requests along with a lot of complicated movement/interactions with the website visitor that would require a lot of knowledge and care, all which were executed flawlessly.

## The Outcome

What were the measurable outcomes from the project that demonstrate progress or success?

The website they built is an exact replica of the Figma files we've provided. The website is built with clean code and they also were able to take our requests to ensure that most content would be

easily editable in-house so we can maintain simple edits, and also add new posts with ease.

The website loads very quickly, and has really great breakpoints for different screen sizes. On top of the quality, the work was done very quickly (before deadline) to provide plenty of time for final feedback and edits. Our client is super happy with the process, and final product and will definitely be reaching out to us to partner with Enlivity for future needs.

## Describe their project management. Did they deliver items on time? How did they respond to your needs?

Project management was very organized and smooth. They like us to provide organized feedback, and in return they execute clearly and quickly.

## What was your primary form of communication with Enlivity S.R.L.?

- Virtual Meeting
- Email or Messaging App

## What did you find most impressive or unique about this company?

Their quality control is better than 95% of the other web vendors I've worked with. In addition, sticking to deadlines was a relief as I'm always worried as we have 100% commitment to deadlines we provide to clients so we expect the same from our partners.

## Are there any areas for improvement or something Enlivity S.R.L. could have done differently?

Nothing specifically comes to mind. I had moments where I was maybe slightly worried about a deadline without seeing progress for a bit, but then they'd deliver something early that's further along than I expected so that was just me being anxious as usual!
