Describe the scope of work in detail. Please include a summary of key deliverables.

The scope of work for this project focused on ensuring scalability and performance as key priorities. Our goal was to not only enhance user experience but also facilitate the integration of new services and meet evolving business needs.

Key deliverables included the development of a minimalist and visually appealing website design, optimized for various screen sizes including tablets, smartphones, and laptops and to be able to accommodate future plans encompassing the addition of an e-commerce platform, subscription services, and more, ensuring the site remains intuitive and professionally polished to engage consumers effectively.

The Outcome

What were the measurable outcomes from the project that demonstrate progress or success?

The website was developed with clean and efficient code, accommodating my specific requests to enable easy in-house content management, future customizations, and seamless addition of new posts.

It boasts swift loading times and excellent responsiveness across various screen sizes. In addition to its high quality, the project was completed well ahead of schedule, allowing ample time for final feedback and adjustments.

Our business is in its early stages, yet thanks to the new website, we are already receiving numerous inquiries and bookings through our online scheduling system.

Describe their project management. Did they deliver items on time? How did they respond to your needs?

Robert and Andrei were highly responsive to all my requests and inquiries, ensuring that every detail was addressed promptly. They closely followed the design specifications, and despite the challenges posed by a poorly written template, they managed to implement all the requirements seamlessly through extensive coding and workarounds. They completed the project within a week, showcasing their efficiency and technical prowess.
